## PROJECTS

### KeeperEDU ↗

KeeperEDU is the true all-in-one and secured education management platform. It's built for 2024, not 1999.

UI test • Functional test • Regression test • End to end test

### MyTakbir ↗

A secured, simple and easy-to-use online LMS platform for learners and amazing mu'allim (teachers) of our Deen

UI test • Functional test • Regression test • End to end test

## EXPERIENCE

### SQA Engineer at Friends Corp. ↗

April 2025 - Present • (Remote)

Achieved 100% production-readiness for 5 products (3 from-scratch, 2 legacy) within 4 months with team.

**Manual Testing:** Executed end-to-end UI and functional validation across 5+ products.

**Regression & E2E Testing:** Ensured release stability through systematic pre-launch test cycles.

**Multilingual QA (English/Japanese):** Verified linguistic accuracy, UI integrity, and locale-specific functionality for all projects.

**Defect Management:** Logged, tracked, and resolved 1500+ bugs via Jira with clear reproducibility steps.

**Cross-Team Collaboration:** Aligned QA efforts with developers and designers to optimize delivery.

### Jr. SQA Engineer at Afnan Innovation Lab ↗

September 2024 - April 2025 • (Remote)

Fast-tracked to junior SQA role in 3 months by improving test coverage by 60%.

**Manual Testing:** Performed UI and functional testing across multiple products to identify defects.

**Regression & E2E Testing:** Conducted multiple regression and E2E test to maintain product stability after releases.

**Test Case Create & Execution:** Created test cases for each modules, executed & tracked in Google sheet.

**Bug Management:** Documented and tracked 3000+ issues in Basecamp with clear steps to reproduce.

**Cross-Team Collaboration:** Worked closely with developers and designers to improve product quality.

### SQA Internship at Afnan Innovation Lab ↗

June 2024 - August 2024 • (Remote)

- Learnt industry grade workflow.
- Directly worked under lead.
- UI testing for pixel perfect output.
- Documented bug with clear instructions.
- Verify bug.
